JOSEPH MULHAGHTAN, Traveling Salesman,

## IN MEMORIAM OF MARY A. GRIFFIN

Affectionately Dedicated to her Parents.

The following lines prove that though years may come—and years may go, sweet little Mary will not be forgotten. When morning's bright wing from our human world dispels the dark gloom of the night, When comes its bright golden hour of light has ministered.

We think of thy bright day so light— Brightness through and half and half, Awaking within every heart Sweet music, so gentle we welcome to us.

But who can never depart? For him who goes, he can never return.

When at eve the soft trilling of home seeking bird Falls plaintively at the window pane, And the wail of the mother heard To welcome the wanderer dear.

We list—our poor hearts grieve with pain With the thought of the loss we feel its loss, Our birds will sing, never again For the hearts that loved it best.

When happy, bright children are threading the streets,

In innocent, rollicking mirth, We yearning look for the small gracefeast Tripped along over the green grass.

Our hearts are full of love, though all are fair, Not one can compare with our love.

Our hearts are full of love, though all are fair, Not one can compare with our love.

When we watch thy young beauty with glad, happy heart, Sweet Mary, our idol our pride, Our life-star, our beautiful dream Dark were dark her ocean, so dark and so dark.

But for thy sweet loves' gentle gleam And thy soft eyes, seeing dimly thy love, In thy light, seeking Faith's gentle hand Toguide us through darkness and sorrow and tears.

To thy home in the beautiful land Rose.

[The following sublime ode to the Supreme Being is a translation from the Russian. It was written by one of the most distinguished gentlemen having this title. This ode is said to have been written on rich silk and suspended in the Imperial Palace at Pekin. The Emperor of Japan had it translated into the Japanese, embroidered in gold and sent to the Emperor of China, who was greatly pleased with it. The poem is a protest against the unpopularity of the Radical party, but the Democratic party is to pass all appropriations necessary to the execution of bad laws, until the party is not strong enough to repeal them, and if on paper trial the Supreme Court should be unable to do so.

The poem is to be recited at the next election. The decision of the Supreme Court has been a live topic in Washington the last week. The presence here of De Lesseps and of Captain Eads, both of whom appeared to give their views to Congress, occasioned new interest in the scheme, or schemes, I should say, as each of these distinguished gentlemen has an entirely different plan. De Lesseps proposes to make a canal through the Isthmus of Panama, connecting the Pacific Ocean with the Caribbean Sea, whose waters are on a level with each other. This would necessitate a huge tunnel through the range of mountains which constitutes the back-bone of the Isthmus. Captain Eads proposes an entirely different plan. # THE HERALD.

JNO. P. BARRETT, EDITOR  
WEDNESDAY, MARCH 24, 1880.

OWEN county, Ky., has instructed for Grant.

The Kentucky Legislature refused to allow Rev. H. W. Beecher the use of the Hall to speak in.

A NEGRO boy in Hawesville, has six fingers on one hand and seven on the other, and has seven toes on each foot.

ONLY 14 counties in the State are entitled to larger delegations in the Democratic State convention than Ohio. Seven others have the same number of delegates that Ohio county has.

There is no foundation for the rumor that Gen. Grant is drowned. It all grew out of surmise or imagination, and with the Blaine and Sherman men it was probably a case of "The wish is father to the thought."

THERE is a spring on the farm of J. R. Denning in Simpson county, Ky. This is nothing peculiar, as many farms have springs, and this spring was not peculiar, until recently, when it began to rise and water flowing from it has covered 100 acres of land. So says the *Franklin Local*.

John D. White, "the gentleman from Clay," was re-elected on the 12th to the Legislature. The three counties only cast 600 votes and John D. White managed to get the majority in those because of his having two or three opponents. This is a vindication of his conduct with a vengeance.

W.M. KENDRICK, an old citizen of Louisville, well known throughout the State, died on Tuesday of last week. He was the only man that we know of who paid his debts in full after being discharged from them in bankruptcy. He has been continuously engaged in the jewelry business for 38 years and was quite successful—due principally to his upright manner of transacting business.

DENIS KEARNEY, the leader of the Communists at San Francisco, was arrested, tried and fined \$1,000 and sent to the House of Correction for six months. He took an appeal to the Supreme Court. The excitement has cooled down, and the Sand Lotters will be a little slow about taking the law into their own hands after seeing the determination on the part of all law-abiding people to see the law enforced.

If the Kentucky Senate adjourns without passing the House Bill reducing salaries, mark our prediction they will never regret it but once, and that will be the balance of their natural lives. The masses of the voters will just as certainly hold it against them as the sun continues to shine. We warn you, Mr. Senators. The tax-payers demand this reduction *en masse*, and if you fail to pass the bill you will find out when too late, that we were correct in our prediction.

GEN. JOHN M. PALMER, of Illinois, is spoken of by his friends, as a useful man for President. The Democrats of Illinois are rather enthusiastic for him. A reader of the *HERALD* says he is for Hancock and Palmer, two brave Generals, who, when the objects of the war on the part of the Government, was accomplished, laid down their swords, and along with their weapons they laid aside all passions or prejudices engendered during the contest, and welcomed the succeeding States back again into the brotherhood in the spirit of the Crittenton resolutions.

## "Little Rhody."

The Republicans of Rhode Island, held their Convention the 18th Inst., and selected delegates to the Chicago Convention. The delegation are understood to be unanimous for Blaine.

## Little Rhody for Tilden.

The Democratic convention of Rhode Island on Monday last, instructed for Tilden and Hendricks, and say they must be elected and inaugurated.

## Pennsylvania's Tilden Boom.

*Editor Herald:*

Since our last writing the two Houses have been engaged in some important discussions, and have passed some important measures. The House has finally passed the bill providing for the branching of the Penitentiary after considerable discussion. The various bills to extend the old prison, work convicts on the new, &c., have been introduced, and may be voted down, and the branch bill passed by a large majority. Only about 9 votes against it. The bill provides that the Governor shall, with the approval of the Senate, appoint a commission consisting of three disinterested citizens of Kentucky, to be known as the Penitentiary Commission. Said Commissioners shall take an oath, and give bond for the faithful discharge of their duties. They shall proceed to select a site and purchase lands for the erection of a branch penitentiary. They may buy not less than 200 nor more than 600 acres of land, and proceed to have erected a wall, to be 12 feet high, and 12 inches thick, not more than 3' square. Commissioners may let out the work to contractors, but shall make arrangement with such contractor or contractors to work upon the contract any number of convicts from the penitentiary that may be agreed upon by and between said Commissioners and contractors. Convicts shall be made to have the branch prison run under the Warden System.

Graves county Republicans did not instruct, but instructed their delegates to vote for delegates for the State at large, who are outspoken Grant men.

Benton county was not *boren* of Grant Republicans on convention day, but enough of them were on hand to carry the county for the "Man on Horseback."

Scott county Republicans did not instruct.

Nicholas county Republicans did not instruct.

Oldham county Republicans failed to instruct.

The Republicans of Wolfe county failed to instruct.

Pike county Republicans want Grant but will take Blaine as second choice.

Boone county Republicans failed to instruct.

Lewis county Republicans do not instruct.

Spencer county Republicans failed to instruct.

Pulaski county Republicans say Lord Grant the third term.

Bullitt county Republicans increase the Grant boom.

Anderson county Republicans are for the European tourist for the next President.

Garrard county Republicans take Grant in "theirin."

Jessamine county Rad's bellow loudly for Grant.

Bell county Republicans jingle for Grant.

Jackson county Republicans are for Ulysses...

Owsley county Republicans will stick to Grant.

Pendleton county do not instruct.

Nelson county leaves her delegates uninstructed.

Brackin county Rad's don't want to swallow the third termer.

Montgomery county Republicans are fond of Grant.

Green and Owen county Republicans left their delegates uninstructed.

Webster county chimes for Grant.

The Tribune's predictions were correct.

Bowe county Republicans swelled the Grant boom on Saturday last.

The Republicans of Russell and Todd counties left their delegates uninstructed.

From the *Messenger and Examiner*.

A man named Phillips shot and killed a man named J. E. Snyder on Wednesday, Greenview, Indiana, on last Wednesday. Phillips claims that the deed was done in self defense.

Newbecker was sentenced to the penitentiary for one year at Owensboro last week. An effort will be made to procure a pardon for him.

A little son of John Mahan was killed by a falling tree at his home near Utica Daviess county, recently.

## PERSONAL.

Mr. H. Small returned home Sunday. Dr. Bruce, of South Carrollton, is attending court this week.

Miss Annie Hardwick is visiting her sister, Mrs. Lizzie Davis, at Pleasant Ridge.

Messrs. Wm. Hamilton and Wm. G. Duncan, of McHenry, called on us last Saturday.

Uncle Warren Griffin and his son, little Wayne Joplin, left for home Saturday.

Maj. Baker Boyd, of Owensboro, candidate for Commonwealths Attorney, is in attendance at our Court.

Misses Sallie McDowell and Laura Midkiff spent last week with relatives and friends in the country.

Judge Murray and Hon. Joe Haycraft arrived Monday evening, and are now making things lively for the law breakers.

Mr. Thos. L. Lewis, who has been absent from his home for four or five years, returned to his home at Rosine last week.

S. P. Roby, Esq., who has been at his father's, near Fordsville, for some time with measles, has recovered and is at his post again.

Mr. T. D. Geoghegan, of Elizabethtown, salesman for C. Merck & Co., of Louisville, was in town last week, and paid us a pleasant visit, and seemed much interested in our cabinet of curiosities.

Rev. E. D. Elliott, of the No Creek Circuit, M. E. Church, left last Sunday for Danville, to attend the session of the Kentucky Conference, which meets today. So far as we have learned, Elliott has given satisfaction.

Mr. Richard Bennett, brother of Wm. M. Bennett, of the McHenry neighborhood, has recently immigrated to this county, from Spencer county, Ind. He will probably locate on the G. J. Bean farm, in the Goshen neighborhood.

James Ezell, a boyhood acquaintance of ours, who has been living in Hoosier for twenty years past, called to see us last Saturday. He speaks of returning to this county soon. The fact is, this is a good county, and the most of those who leave it, sooner or later wish themselves back.

Mr. Taos Graeme, adjusting agent for Barber & Castleman, General agents for the Southern States of the Royal Insurance Company, of Liverpool, England, was here last week a short while engaged in adjusting the loss of W. T. Woodward. We found him to be a very pleasant gentleman and a good business man.

This Commonwealth ought to consider, that the object of a prison system, is not simply to punish by cruel punishment, but to reform the convicts. Under the present system there is no hope of reformation, but on the other hand, there is a school for villainy. He who enters it in its present condition, and under its present management, must feel that his star of hope is set. We speak not of any reflection upon the present Keeper, but upon the system, where no grades of crime are recognized, no inducements for reformation are offered, but *all* old offenders are treated as though they were novices.

Rather cool weather for spring. Matrimonial market quiet.

Peaches seem to be safe so far, but if this freezing weather continues for any longer than we would hesitate about buying them.

Charles Moorman, of Litchfield, spent a week in town last week.

An officer from Lincoln county was here, to inspect the prison, and under its present management, must feel that its star of hope is set. We speak not of any reflection upon the present Keeper, but upon the system, where no grades of crime are recognized, no inducements for reformation are offered, but *all* old offenders are treated as though they were novices.

We must know that when we thrust the child of 14 years of age who has been drawn into some petty larceny by others, into a crowded prison to mingle with, and associate with the hardened villain of years, experience, and less experience in crime are crowded together. **Educational.**

W. L. Hawkins . . . . . Editor.

INTELLIGENCE pays—ignorance costs. Choose between them.

QUALITY, not quantity, should be the test of success in teaching.

INTELLIGENT, well posted people sustain the teacher in his work of instruction and discipline.

Do you want to keep yourself interested? keep an honest conscientious discharge of your duty.

Do you want your patrons to be interested? then keep them posted in what you are doing for them and their children.

ONE good black board with a teacher who knows how to manipulate it does more good than all the scientific appliances for punishment.

WHEN the first Napoleon was asked at St. Helena how France might be regenerated, his answer was, "by educating the mothers of France."

In Wyoming the women vote. Every school house, we venture, has an ante room with a hat rack, and is innocent of the fumes of whisky and tobacco.

Do you want to keep your pupils interested? keep them advancing, not so particularly from page to page of the text book as from vague idea to settled fact.

It matters not how much learning—how much wisdom your teacher has, if he has not tact to get it pleasantly and smoothly with his scholars; he is, as a teacher, a failure.

If you have an idea that is useful, tell it. Remember if you tell it through your local paper, and tell it well, it may benefit thousands of others, without being one bit the less useful to yourself.

A YOUNG woman applying for the situation as teacher to a village school, being questioned by the trustees as to her qualifications, replied: "I am much of an arithmeticker, but I am an elegant grammairist."

X. Y. Z.—Write just what you have to say in plain words, which are unmistakably English, and use as few of them as will clearly express what you want; then your style will be perspicuous and forcible.

ST. HELENA, Napoleon's "living tomb," was discovered by the Portuguese in 1801. Afterwards it came into the hands of the Dutch; and finally, in 1851, it fell into the hands of the English, who still have possession.

BUILD good school houses, supply them with comfortable seats, furnish them with books of reference, plenty of black board surface, have them sensibly ventilated; then your children will, at all times be willing to attend school.

J. P.—Your letter does tolerably well, but you make too many common-place French and Latin quotations. Purity of style and common sense form my highest opinion of "what it takes to make a good business-letter," or a newsy chatty letter of friendship.

In every department of education intellectual processes are quickened and invigorated by the manipulation of materials; by the practical doing; by the application of theory to practice; by the conversion of thoughts into acts.

STEVENS—Livermore—Among so many really excellent Educational periodicals, it is hard to answer your question definitely. The American Journal of Education, published at St. Louis, and the Eclectic Teacher, published at Louisville, are, in our opinion, among the best.

THE American Journal of Education for February is received. It is, as other numbers have been, chock full of readable and helpful articles just such as will make its readers wiser and better teachers.

Would that every teacher and parent in the land were taking and perusing the American.

THE Commissioner's "Reports of visitations" are interesting and instructive, and well calculated to incite the people to improve their houses and schools. When will the people of Ohio county see that a more liberal outlay for schools is the tree of economy? Well, some have seen it, and are rejoicing accordingly.

A TEACHER who has no mind about punishing a child for every little fault, who thinks he is keeping good order in proportion as he strikes terror to the hearts of his pupils—who feels glorified and exalted as he sees the little ones tremble and cower as he passes—would more nearly find his proper place and calling in a butcher's shop, or in the training of fighting dogs.

How true is it that the stream never flows higher than the fountain! This is preeminently true in education. If you want your children learned, you must send them to teachers who are learned. How can a man who has to "study of nights" to keep ahead of his classes, ever hope to make good scholars. Will your children learn morality from an immoral teacher—as well expect to gather figs from a thorn.

We have just finished the reading of the Eclectic Teacher for December. We would recommend the Eclectic to all who are interested in the matter of education, and who like to read and be posted in such things as pertain to teaching and education. Its value to a thoughtful teacher is simply incalculable, while it is almost as much value to every patron of a school. Its price puts it within the reach of all—only one dollar a year. Each number is really worth the money.

One great reason why children are frequently so averse to going to school, is to be found in the fact that the skill of the architect and builder is so taxed to render the school house as hateful and repellent to the children as possible. This is, we suppose, assuring the fond parent that their loved (?) ones are actuated by no other motive than the strong desire to become as learned as themselves. Then the benches! They are, in the majority of country school houses, the most ingenious contrivances of diabolical torture.

To REMOVE DANDRUFF.—Wash the hair thoroughly in rain water, with a good deal of borax dissolved in it.

It is useless to say that good crops come from luck. It is not so. The secret is in selecting the seed with care, draining the fields, keeping out cattle, and having sound fences.

Young stock fattens much more readily than old stock. Pigs, when they have attained to their growth, fatten at a less cost than when older. The same is true of steers and all other animals.

Don't be afraid feeding your laying hens during cold weather; more hens suffer from under feeding than over feeding. It takes a good deal of food to keep up animal heat, and provide the material for eggs.

A good Jersey cow, during ten years of usefulness, will produce skim milk enough to pay for her keep, and three thousand pounds of the best butter in the world into the bargain—better worth several times as much as the heaviest beef animal.

FURNITURE POLISH.—Take spirits of turpentine in the proportion of two ounces to one of linseed oil, apply with a rag and polish with buckskin, and afterwards with the hand. This polish is splendid on pianos or organs and gives them a newness not otherwise obtainable.

COOK PEAS.—The yield in cow peas is from fifteen to thirty bushels per acre, according to the yield in hay or grain from two to four tons after being cut to land. A neighbor has raised five wheat crops, one year after another, on seven acres of what was poor land when he began with it, and the two last crops made sixteen to twenty bushels per acre. The first crop on this land was five bushels to the acre.—*Farmers' Friend, Columbus, Tenn.*A HINT FOR THE POULTRY YARD.—As soon as newly hatched chickens are strong enough to handle, say in twenty-four hours after they come from the shell, grease the top of the head with a little lard, repeating the operation the next day. If you do not trust yourself to use mercury-saltnitrum, mix a bit of the ointment, quarter as large as a pea, with sufficient lard or oil to grease the brood of chickens, and apply to the head, rubbing it well in. An eminent poultry raiser assures us that chickens treated in this manner never become affected with gapes provided they are supplied with fresh water and ordinary good care.—*X. Y. Herald, Columbus, Tenn.*A MODEL.—You will always find a successful farmer the alert for facts that have a bearing on his pursuits. It doesn't make any difference how often he picks them up, but he is determined to know all that is new, and he profits by it. This kind of a farmer is more than a mere laborer—he reads and converses with men of intelligence. He studies, thinks and plans before going into any new enterprise. He has the right to come out as a successful business man. He seeks to buy the best, and in the cheapest market, manages to sell in the highest market, and very seldom fails to get the best prices. This farmer looks ahead, and by aid of his current information knows when to sell his hold property.—*The Minnesota Farmer.*

GRAHAM FLOUR.—To have graham in perfection one needs to have good Graham flour. And to have good Graham flour the true way is to take the best wheat and have it ground without bolting. Many farmers conveniently near to a mill, but have no flouring mill, will have to go to a miller. The grain should be well cleaned, and when ground will give a fine flour.

It is inadvisable to let the grain sit.

It is vulgar. Altogether too low for a noble character.

It is ungenteel. A gentleman according to Webster, is a "gentled man; well-bred; refined." Such a man would sooner make mud pies in the street than swear.

It is indecent. Offensive to delicacy, and unfit for human ears.

It is foolish. All other sins, like theft, have momentary benefits, but this has none. The swearer bites Satan's bare hook.

It is abusive. To the one who conceives the oath, the language is appropriate at which it is aimed.

It is "venerous." The swearer's heart is like a nest of vipers; when he has stuck his stings into his own heart.

It is contemptible. It forfeits the respect of all the truly wise and good.

It is wicked. Violating the law and provoking the displeasure of Jehovah.

It is cowardly. Implying a fear of not being believed or obeyed.

A REGISTER'S FEES.

He Wants over Seven Thousand Dollars for Filing Bonds and Coupons.

When the Evansville, Owensboro and Nashville railroad became bankrupt, certain questions of great importance, such as the list of stockholders and the amount of stock held by them, and the amount of money on hand for distribution, were submitted to Mr. J. Moore, Register of Bankruptcies, of New York. Yesterday this gentleman filed a very voluminous document in the case, which bore the name of his report. The lawyers for Col. E. W. Cole, came in with exceptions to certain parts of the report. One of the items in Mr. Moore's account was his aggregation of the debts of the bankrupt. All together, it seems that he handled 5,167 bonds and coupons, and for filing each of these he charged ten cents, which method gave him a claim of \$7,489.70. Some of these bonds had as many as forty coupons. Col. Cole is a creditor of the road, and the holder and the owner of the bonds were liable to be sued by the road. To Moore's charges and fees he entered exceptions on the ground that the charge was not allowed by the statute. Judge Brown heard arguments on both sides of the question, and announced at the same time that the Register's exceptions were well founded. A simple, but never the less of the comparative value of different kinds of Soaps is to dissolve a soapstone. It is a stone of a white color, and may appear white, examined by its appearance, but it is composed of chalk, and is thoroughly dissolved. The debris, however, remains, and may be shown after settling some twenty minutes or more, by the milky appearance of the solution.

Be sure and ask for Col. Cole's Soaps and the Register's Bonds and Coupons. The net amount to be distributed, according to Register Moore's report, was \$48,850.04; but the slice taken by him from the charges by the action of the court, yesterday, will materially increase this sum.—*Courier-Journal.*

To Whom it May Concern:—In the year 1851 I treated with Kendall's Spavin Cure a horse which was lame in the hind legs, and nearly half as large as a hen's egg, and completely stopped the lameness and removed all the swelling, and the hind legs were never since very hard, and have never been lame, nor could I ever see any difference in him, nor any change in his gait, compared with Kendall's Spavin Cure.

KALAMAZOO, April 15, 1859.

B. J. KENDALL, Esq., of Springfield, Mass., in his suit against Ayer, et al., received on Jan. 18, 1851 the two bottles of your Spavin Cure forwarded by express in January last, and paid for the same, and also paid all your advertisement etc. for three weeks after I commenced using it the spavin was entirely removed and a valuable horse restored carefully.

Very truly yours,

J. H. PARKER.

Send address to Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as for man.

Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or will be sent free by mail on receipt of the money by adding 10 cents postage.

A Dangerous Counterfeit.

WASHINGTON, March 16.

The Senate Committee on Privileges and Elections today, by a strict party vote, decided to report to the Senate two resolutions on the Spofford-Kellogg case—first, that Kellogg is not entitled to his seat, and second that Spofford was duly elected. The resolutions will be introduced in a few days, accompanied with a report in behalf of their adoption. The Republican members will submit a minority report.
